INTRODUCTION

Software Engineering student specializing in full-stack development with proven expertise in building scalable web applications and AI-powered systems. Delivered 15+ client projects generating $25K+ revenue while maintaining 100% satisfaction rate. Combines technical proficiency in MEAN stack, Python, and Rust with strong business acumen in digital marketing and lead generation. Reduced system latency by 30% and achieved 95% fraud detection accuracy through innovative solutions.

EDUCATION

Bachelor of Software Engineering   Expected: June 2026
National University of Modern Languages (NUML)   *Rawalpindi, Pakistan*

TECHNICAL SKILLS

Languages: Python, JavaScript/TypeScript, PHP, Rust, C/C++
Technologies: React, Angular, Node.js, Express, Flask, Django, MongoDB, MySQL, PostgreSQL, Docker, AWS, Git

PROFESSIONAL EXPERIENCE

Backend Developer Intern   June 2024 – August 2024
Smile Check AI   *Remote*

- Engineered high-performance Rust backend services processing 10,000+ daily AI diagnostic requests with 99.8% uptime
- Reduced API latency by 30% through PostgreSQL optimization and Redis caching implementation
- Collaborated with 8-member Agile team, conducted code reviews, and established Rust best practices

Freelance Full-Stack Developer   January 2025 – Present
Devmerce   *Remote*

- Delivered web solutions for 15+ international clients across e-commerce, healthcare, fintech with 100% satisfaction
- Generated 500+ qualified B2B leads monthly through data-driven digital marketing campaigns (15% conversion rate)
- Led cross-functional teams of 5-8 freelancers, meeting 95% of project deadlines consistently

KEY PROJECTS

Homixa.us – Real Estate Platform | *MEAN Stack, AWS, RESTful APIs*   2024
- Developed marketplace platform with 5,000+ listings serving 1,200+ users; achieved 99.9% uptime on AWS
- Built RESTful APIs handling 50,000+ daily requests with ¡200ms response time through optimization

Fraud Detection System | *Python, React, Flask, Machine Learning*   2024
- Created ML-powered system analyzing 100,000+ daily transactions with 95% accuracy, 2% false positive rate
- Implemented real-time alerting dashboard reducing fraud detection time by 30%

E-Commerce Platform | *PHP, MySQL, JavaScript*   2024
- Built responsive platform processing 200+ monthly orders; achieved PageSpeed score 92+ and 60% SEO improvement
- Integrated Stripe/PayPal payment gateways reducing checkout abandonment by 25%
